International Incident Number RH-1B34BEB7-3214-47D4-B196-256A1FC80AC1

On or about Saturday, July 19<sup>th</sup>, 2013, around 4pm in the afternoon, a frantic phone call came from the Secretary of State for The United States of America, by the Secretary of State himself, one Leslie Todd Kynett to the general post masters.

It was reported by the Secretary of State that one of the Deputy Prosecutors of DOUGLAS COUNTY, STATE OF NEVADA called the Secretary of State's mother, to report that there is a suspicion that the Secretary of State may be involved in Domestic Terrorism and could potentially be a Domestic Terrorist. The report was immediately delivered to the Governor of The United States of America and another general post master.

The sense of urgency coming from the general post masters was for the following reasons:

1: In the federal United States, when someone is labeled a "Domestic Terrorist" by Homeland Security and the Southern Poverty Law Center, their lives are automatically in danger. The reason for the danger is because of one incident involving Jerry and Joe Kane:

<http://abcnews.go.com/WN/deadly-arkansas-shooting-sovereign-citizens-jerry-kane-joseph/story?id=11065285>

<http://www.splcenter.org/get-informed/intelligence-report/browse-all-issues/2010/fall/sovereign-citizen-kane>

Jerry and Joe Kane did suffer vigilante justice at the hands of the police an hour or so later in a Walmart Parking lot.

Since that time of the Jerry and Joe Kane incident, Homeland Security, through Southern Poverty Law Center, headed by Morris Dees, have been spreading these lies about multiple organizations as Hate Groups, Violent Groups in the name of the Federal Bureau of Investigations.

<http://www.splcenter.org/>

Furthermore, while appearing to care for others, here is a report about the financial holding of the Southern Poverty Law Center.

From the article [King of Fearmongers - Morris Dees and the Southern Poverty Law Center, scaring donors since 1971:](#)

What has infuriated the SPLC's liberal critics is their suspicion that Morris Dees has used the SPLC primarily as a fundraising machine fueled by his direct-mail talents that generates a nice living for himself (the SPLC's 2010 tax filing lists a compensation package of \$345,000 for him as the organization's chief trial counsel and highest-paid employee) and a handful of other high ranking SPLC officials plus luxurious offices and perks, but that does relatively little in the way of providing the legal services to poor people that its name implies.

CharityWatch (formerly the American Institute of Philanthropy), an independent organization that monitors and rates leading nonprofits for their fundraising efficiency, has consistently given the SPLC its lowest grade of “F” (i.e., “poor”) for its stockpiling of assets far beyond what CharityWatch deems a reasonable reserve (three years’ worth of operating expenses) to tide it over during donation-lean years. But even if the SPLC weren’t sitting on an unspent \$256 million, according to CharityWatch, it would still be a mediocre (“C+”) performer among nonprofits.

The Southern Poverty Law Center, in the name of the FBI, have been going to each County of the federal United States, spreading lies about the people that believe in the Bill of Rights calling them murderers, violent hate groups, anti-government, racists, etc... Basically scaring the hell out of the local police and Sheriff’s into a paranoid frenzy against anyone that does not want to be a part of the Democratic Party and its policies. The Campaign has been so successful as you can see from the financial holdings of Southern Poverty Law Center above, that anyone listed as a Domestic Terrorist qualifies as “Attempted Murder” by Homeland Security and the Southern Poverty Law Center.

Morris Dees of Southern Poverty Law Center and Janet Napolitano of Homeland Security, formerly known as the United States Shipping Board are in conspiracy together to systematically eradicate the political opponents of the Democratic Party which qualifies as genocide under the Rome Statute Articles 6 to 8.

Most if not all Political assassinations and murders are carried out by un-suspecting local police and Sheriff’s. One of the witnesses as general post master did suffer the same profiling about 30 days after the Jerry and Joe Kane event with no connection to the incident whatsoever. One of the witnesses has firsthand knowledge of this type of profiling and accusation of the person without probable cause and evidence to support such profile and accusation and the danger that it causes to the victim and their families of the “Domestic Terrorist Profile”. The result of the “Domestic Terrorist Profile of the PERSON, if any of those people are pulled over in a traffic stop, multiple police and sheriff’s show up at the traffic stop and begin to use that Profile to bypass the Article the fourth, also known as the Fourth Amendment of the Bill of Rights as Probable Cause which qualifies the “Sovereign Citizens Domestic Terrorist Profile” as a political tool and lays the ground work to murder and assassinate political opponents of the Democratic Party. This political tactic results in genocide by officers under the mind control of the “sovereign citizens political eradication program” implemented by Homeland Security and Janet Napolitano. Furthermore, it is impossible to receive a fair trial nor leave the local detention center without a very high “Bond”. All of the Attorney’s are very prejudicial towards the defendant, the fines are usually higher which results in Bribes for the Judges to uphold the Official Profile. Also, the profile results in constant surveillance by the local Sheriff’s department, usually harassing the person until they have to move out of the area and constantly look over their shoulder for the rest of their lives for fear of being murdered. The judges are allowing this political profile to remain on their records which results in knowingly placing the profiled in danger of being murdered on a daily basis usually hiding the intent to endanger the life of another for political reasons under the cover of a bench warrant.

The two general post masters reporting the crime are officially accusing and classifying any type of Domestic Terrorist claim made by the Deputy Prosecutor of Douglas County, under the direction and control of the Prosecutors Office of Douglas County, under the control of the Governor of the Territory of Nevada, under Homeland Security, being influenced by a functionary of Homeland Security (Southern Poverty Law Center), as “Attempted Murder” for the purpose of political assignments against the people who do not share the views of the status quo of the Democratic Party. Furthermore, any future accusations, in light of this testimony, will result in “Attempted Murder” charges against any Police Officer or Sheriff that enforces a Domestic Terrorist Profile without any probable cause or evidence to support such a profile because under these conditions, the probability of a murder taking place of the profiled is dramatically increased in percentages. The lack of a driver’s license does not constitute “Domestic Terrorism”, basically because free inhabitants travel under Article IV of the Articles of Confederation and the Articles of Confederation, as amended May 19<sup>th</sup> 2013.

The current conditions of the Secretary of State for The United States of America is that he is under the protection of the Bill of Rights Peace Treaty by and between the Confederacy United States and the federal United States, although he cannot leave his home to conduct the business of the Government of The United States of America due to the murder threat by the prosecutors office of Douglas County even though there is no contract to warrant a Bench Warrant, nor any evidence to support a Domestic Terrorist Profile. Therefore, the phone call received by the Secretary of State's mother from the Deputy Prosecutor of Douglas County is being treated as "Attempted Murder".

The Government of The United States of America, on and for the International Record, has its own survey, and therefore does not trespass on any other Nation or State. As a matter of fact, The United States of America, in it altered State, is more than qualified to assist the State of Nevada towards economic and sovereign Independence. All of the affirmed American Nationals are a peaceful people, never greedy nor do they covet their neighbor's things. Licenses to operate a Motor Vehicle are optional, depending of the amount of liability that the American National is willing to suffer. All American Nationals are bonded in the amount of 500,000.00 to cover any damage. Furthermore, the Government of The United States of America has offered to cover any and all maintenance costs to maintain the rural free delivery routes that abut the road and highway survey, to share in the light of the Bill of Rights Peace Agreement which is what made the Country as a whole great in the first place.

The Government of The United States of America will continue its humanitarian cause to bring back that balance by and between the federal United States and the Confederacy United States whereas the differences are spelled out in the ratification of the Bill of Rights.

End of report,

The general post masters hereby request from the General Post Master Council as representatives of Leslie Todd Kynett in his personal capacity to forward this report as an addendum to the original Tort claim and classify the report as "New Evidence" to be sent to the office of the Secretary of State to be faxed to the Secretary of State of Nevada, and the court of Douglas County.
